Role: ServiceNow GRC Certified Developer

 Job Type:	Remote	 Job Duration:	6 months & extensible
 Number of Openings:	1	 Experience:	6 - 7 years
 Job Location:	India		

Job Description:

We are seeking a highly skilled **ServiceNow GRC Certified Developer** with deep expertise in **Governance, Risk, and Compliance (GRC)** modules. The ideal candidate will have advanced **ServiceNow certifications**, strong development experience, and expertise in **customization, integration, and automation**. This role will focus on building, optimizing, and enhancing **Risk Management, Compliance, Audit, and Policy** workflows within ServiceNow.

Responsibilities:

- Develop, configure, and customize **ServiceNow GRC modules** (Risk, Compliance, Audit, and Policy).

Implement **automations, workflows, and integrations** to enhance platform capabilities.

Collaborate with **stakeholders and business units** to design and deliver GRC solutions.

Develop and maintain **custom scripts, UI policies, business rules, and workflows**.

Ensure **compliance with best practices** and deliver high-quality solutions.

Troubleshoot, optimize, and enhance **existing ServiceNow GRC implementations**.

Integrate ServiceNow GRC with **third-party tools and enterprise systems**.

Provide guidance on **GRC best practices, compliance standards, and risk mitigation strategies**.

Requirements:

• Requirements:

- ✓ **Advanced ServiceNow GRC certifications** (e.g., **Certified Implementation Specialist – GRC**).
- ✓ **6+ years of hands-on ServiceNow GRC development** experience.
- ✓ Expertise in **Risk Management, Compliance, Audit, and Policy Management** within ServiceNow.
- ✓ Strong **scripting skills** (JavaScript, GlideScript, Business Rules, UI Actions).
- ✓ Experience with **ServiceNow integrations (REST, SOAP, APIs, MID Servers)**.
- ✓ Deep understanding of **GRC frameworks and regulatory compliance** requirements.
- ✓ Strong problem-solving and analytical skills.

Preferred Skills:

Knowledge of **ServiceNow Security Operations (SecOps)**.

Experience with **ServiceNow IRM (Integrated Risk Management)**.

Familiarity with **Cloud Security and Compliance frameworks**.

Strong communication and stakeholder management skills.

Preferred Skills:

Microservices
