1. Import 500 Ads with Unique Identifiers into the Database
   - Import a CSV or data source containing ads with unique IDs.

2. Stop Failing Ads from Database to Frontend Listing
   - Implement error handling to prevent failing ads from being displayed.
   - Use the unique Program Code to identify and exclude failing ads.

3. Create Routing for Cron Job
   - Create a dedicated route that triggers the Cron Job.

4. Create Program to Exchange Ad Order (Automatic Functionality)
   - Implement a program to shuffle the order of ads.
   - This program will run automatically based on a defined interval.

5. Randomize Ad Order When Cron Job Runs
   - When the Cron Job runs, the program from step 4 is executed.
   - The order of ads is randomized for each execution.

6. Create Frontend Listing Program
   - Develop a frontend listing program that fetches ads from the database.
   - Display the 500 fixed ads in the listing.

7. Display Additional Lists Below 500 Ads
   - If there are other lists, display them below the fixed 500 ads.

8. Merge User Listings with 500 Ads
   - If users create their own listings, merge (append) them with the 500 ads.

9. Tag Fixed 500 Ads as Premium/Featured
   - Implement a tagging mechanism to mark fixed 500 ads as premium or featured.

10. Scroll Ads Three Times a Day
    - Set up a scheduling mechanism to scroll ads three times a day.
    - Use the Cron Job to trigger ad scrolling at specified intervals.

11. Set Up Cron Job on Website and Server
    - Configure the Cron Job on both the website and the server.
    - Schedule the Cron Job to run in three time slots.

12. Create Program to Clear Logs
    - Develop a program to clear logs on the website and server.
    - This program should be triggered at specific intervals.

13. Clear Logs Once a Day After Three Ad Slots

- Run the log-clearing program once a day, after completing three ad scrolling slots.

14. Maintain Server and Website Cleanliness
   - The combined effect of ad scrolling and log clearing keeps the server and website clean.
